## ## ✨ Overview

This is a design-only demo created for presentation and customization purposes. It includes responsive page flow, themed branding, and clean UI — but no live booking, backend, or email systems.

This template was designed by **\*\*Rahmx Ltd\*\*** and is available for rebranding, licensing, and professional deployment.

## ### Key Highlights:

- Fully responsive layout
- Menu showcase with categories
- Animated section transitions
- Visual booking section (non-functional)
- Modular UI components using ShadCN + Tailwind
- Firebase-ready for hosting

💡 \*Note: There is no live backend — no contact forms, bookings, or email logic in this version.\*

---

## ## 👤 Who Is This For?

- Small business owners & startups
- Designers seeking a clean restaurant layout
- Developers looking for a jumpstart project
- Agencies offering demo sites to clients

---

## ## ⚙️ Tech Stack
